Please refer to "Basic Views" in Part I section 1 of this report.

(2) Securing the Rights and Equal Treatment of Shareholders

d. General shareholders meeting

- The Company sends a notice of convocation for its Ordinary General Meeting of Shareholders three weeks prior to the day of the meeting. In advance of the date of dispatch, this notice is made available on both its corporate website and the Tokyo Stock Exchange (TSE) website, ensuring that shareholders have sufficient time to review the agenda of the General Meeting of Shareholders.
- The Company provides an English translation of the notice of convocation on its website. Additionally, the Company utilizes an electronic platform for voting so that institutional and foreign investors can exercise their voting rights.

e. Cross-Shareholdings - Principle 1.4

- The Company only holds shares of other companies with which it has business relationships and seeks to minimize the number of shares. In relation to such shareholdings, the Company determines and assesses whether or not each shareholding contributes to the corporate value of the Company Group. This assessment involves considering the Company's mid-to-long term business strategy, and comparing the benefits of such ownership (dividends, business transactions, expected returns from strategic alliance, etc.) with the Company's cost of capital. As a result of the review, the Company divests shares from shareholdings that are deemed to be of little significance, taking into consideration its financial strategy and the market environment.
- The Company decides whether to exercise its voting rights on cross-shareholdings after conducting a comprehensive review. This assessment considers whether a relevant proposal makes a positive contribution to shareholder value as well as the value of the issuing companies. The Company will object to any proposals that are deemed detrimental to shareholder value

or the corporate governance of the issuing companies.

f. Related Party Transactions - Principle 1.7

- With regard to transactions with directors and their close relatives, the Company conducts various investigations on the existence of such transactions, including confirming directly with the directors themselves.

In addition, transactions involving the Company and a director's close family members or the Takeda Executive Team (TET) member (which consists of the President & Chief Executive Officer (CEO) and the function heads of the Takeda Group who report directly to the President & CEO), and their close family members require the approval of the Board of Directors (BOD).
- Investments, loans and guaranties provided to subsidiaries/affiliated companies require the approval of the Business & Sustainability Committee (BSC) or other decision-making bodies depending on the amount of the investment, loan, or guarantee.
- In addition to the above, the Company will investigate any unusual transaction between the Company and its affiliated companies. It will consider the accounting treatment and disclosure in advance, confirm the significance of the transaction value, and where the amounts are significant, monitor the content and conditions on a quarterly basis.
- As stipulated in the Financial Instruments and Exchange Act, the Company considers any shareholder holding 10% or more of the voting rights of all shareholders (excluding those specified by the Cabinet Office Ordinance) as a "major shareholder." The Company currently has no major shareholders but will apply the above procedures to any major shareholders in the future.

Each Director completes a questionnaire and/or is individually interviewed. Based on the results of the evaluation, the BOD analyzes and evaluates their effectiveness and acts on any opportunities for improvement.
- In fiscal year 2023, an evaluation of the performance and effectiveness of the BOD was conducted by third party organizations through individual interviews of all the Directors. The interview focused on “Strategic Alignment & Engagement,” “Composition & Structure,” “Processes & Practices,” “Management Oversight,” and “Board Culture and Dynamics” as key evaluation items, and Directors were also requested to make self-evaluations about the “Oversight by ASC and Nomination Committee.” After incorporating the analysis and recommendations made by the third-party organization, the overall evaluation result was explained by the third-party organization and discussed by all Directors. In fiscal year 2023, as part of an annual exercise, with support from a third-party organization (to develop the questionnaires), the Compensation Committee members conducted a self-evaluation on the “Effectiveness of the Compensation Committee” from four dimensions: (1) Composition and Leadership, (2) Meetings, (3) Overall Effectiveness, and (4) Responsibilities.  - The Chief Financial Officer (CFO) is responsible for overall engagement with shareholders, and the Global Head of Investor Relations (IR) in the Global Finance division is accountable for operational IR activities. When planning and conducting meetings with shareholders, the Global Head of IR determines the meeting style, discussion points and participants from management (which may include the President & CEO, the CFO, or other senior management members), taking into consideration the objectives and impact of the meeting, and the characteristics of each shareholder.

In addition, the actual management of the pension fund investment is outsourced to an external consigned institution so that conflicts of interest which could arise between pension fund beneficiaries and companies are appropriately managed. The Company shall not be involved in directing pension fund investments or exercising voting rights. The investment is monitored regularly by the Asset Management Committee, changing the portfolio strategy as necessary. The committee takes into consideration the maximizing of benefits to the participants and beneficiaries of the Company's corporate pension program, paying close attention to the potential impact to the Company's financial conditions at the same time.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System) Update

At the Company, the BOD determines the fundamental policies for the group, and the TET executes the management and business operations in accordance with such decisions. The External Directors of the Board are all qualified individually and with a diverse and relevant experience as a group. The ASC, which is composed entirely of External Directors, audits and supervises the execution of directors from an independent standpoint and contributes to proper governance and decision-making of the Board. Moreover, in order to respond to management tasks that continue to diversify, the Company has established the TET, as well as the Business & Sustainability Committee (which is responsible for corporate / business development matters and sustainability-related matters), the Portfolio Review Committee (which is responsible for R&D and products related matters), and the Risk, Ethics & Compliance Committee (which is responsible for risk management, business ethics and compliance matters). These committees review important matters to ensure the agility and flexibility of business execution and promote greater coordination among the various functions. Matters not requiring the approval of the aforementioned committees are delegated to the TET stipulated in the Takeda Group's Management Policy (T-MAP). The Company aims for agile and efficient decision-making across the group.

Board of Directors

The Company has given its BOD the primary function of observing and overseeing business execution as well as decision-making for strategic or particularly important matters regarding company management. The BOD is operated according to the "Board of Directors Charter." The BOD consists of 14 Directors (including three females), including 11 External Directors, six Japanese and eight non-Japanese, and meets in principle eight times per year to make resolutions and receive reports on important matters regarding management. In fiscal year 2023, the BOD discussed and made decisions on particularly important matters including the convocation and proposal matters of the General Meeting of Shareholders, enterprise risk assessments, annual and mid-range business plan, interim financial results, quarterly financial results, financial statements, business report. They also made decisions on updating the Company's capital allocation policy, which includes our progressive dividend policy of increasing or maintaining the dividend each year and a dividend increase proposal based on this policy. In addition, the BOD had a strategic session to focus on the discussion about long-term business forecasts, R&D pipeline strategy and global business strategy, etc., as well as an executive session for discussion among only External Directors. Eight BOD meetings were held in fiscal year 2023 and all Internal Directors who took office at the end of fiscal year 2023 attended all meetings. (Please refer to the Table "External Directors' Relationship with the Company (2)" in [Directors], Part II, section 1 of this report about the attendance of External Directors.) The BOD meeting is chaired by an Independent External Director to increase the independence of the BOD. To ensure the validity and transparency of the decision-making process for the election of Director candidates and compensation of Directors, the Company established a Nomination Committee and a Compensation Committee, all the members of which are External Directors and both of which are chaired by External Directors, as advisory committees to the BOD.

Audit and Supervisory Committee

The ASC consists only of External Directors and ensures its independence and effectiveness in line with the ASC Charter and Internal Guidelines on Audit and Supervision of ASC. The Committee conducts audits of the Directors' performance of duties and performs any other duties stipulated under laws and regulations and the Articles of Incorporation. The Company has disclosed the ASC Charter in the Charters and Reports section of the Company's website.

- Charters and Reports: <https://www.takeda.com/about/corporate-governance/charters-and-reports/>

The GIA department, comprising 55 members, the Corporate Environment, Health and Safety (EHS) department in the Global Manufacturing & Supply division, and Global Quality conduct regular internal audits for each division of the Company and each Group company using their respective guiding documents, the "Group Internal Audit Charter," the "Global Environment, Health and Safety Policy and Position," and the "Global Quality Policy."

Takeda Executive Team

The TET consists of the President & CEO and function heads of the Takeda Group who report directly to the President & CEO. Please refer to the Leadership section of the Company's website.

- Takeda Executive Team: <https://www.takeda.com/about/leadership/>

Business & Sustainability Committee

The Business & Sustainability Committee consists of TET members. In principle, it holds a meeting twice a month to discuss and make decisions on important execution of corporate/business development matters and sustainability-related matters.

Portfolio Review Committee

The Portfolio Review Committee (PRC) consists of TET members and the heads of the R&D core functions. In principle, it holds a meeting two to three times a month. The PRC is responsible for ensuring that the Company's portfolio is optimized to achieve the organization's strategic objectives and determines the composition of the portfolio by reviewing and approving R&D investments in portfolio assets. In addition to determining which assets and projects will be funded, the PRC defines how investments will be resourced.

Risk, Ethics & Compliance Committee

The Risk, Ethics & Compliance Committee consists of TET members. In principle, it holds a meeting once every quarter to discuss and make decisions on important matters concerning risk management, business ethics and compliance matters, and risk mitigation measures.

Accounting Audit

KPMG AZSA LLC was appointed as the Accounting Auditor of the Company at the Company's general shareholders meeting, marking a consecutive auditing period of 17 years. The Company's accounting was audited by the following three certified public accountants from KPMG AZSA LLC: Mr. Kotetsu Nonaka (consecutive auditing period: six years), Mr. Masahiko Chino (consecutive auditing period: two year) and Mr. Hiroaki Namba (consecutive auditing period: four years). These three certified public accountants were supported by 28 other certified public accountants and 106 other individuals.

The ASC makes the decision on the reappointment or non-reappointment of the Accounting Auditor after assessing the audit quality, quality control and independence of the Accounting Auditor.

Liability Limitation Agreement

The Company has executed agreements with Non-Executive Directors stating that the maximum amount of their liabilities for damages as set forth in Article 423, Paragraph 1 of the Companies Act shall be the amount provided by law.

3. Reasons for the Adoption of the Current Corporate Governance System

The Company is a company with an Audit and Supervisory Committee, which enables the BOD to delegate a substantial part of their decision-making authority of important business executions to management. This separation of business execution and supervision allows the Company to further expedite the decision-making process and enables the BOD to focus more on discussions on business strategies and, particularly important business matters. By implementing audit and supervision systems conducted by ASC, increasing the proportion of External Directors and promoting diversity within the board, the Company aims to increase transparency and independence of the BOD and further enhance its corporate governance.

The compensation of Internal Directors consists of "Basic Compensation"(Base Salary and other fixed compensation (if applicable)), which is paid at a fixed amount and "Performance-based Compensation", which is paid as a variable amount based on company and other performance factors.

Both Bonus and Long-term incentives represent a significantly higher proportion of Total Director Compensation putting Internal Directors' pay at risk in alignment with the Company's performance. The ratio of Long-term Incentives is particularly high within Performance-based Compensation in order to ensure the alignment of the interests of Internal Directors and shareholders and drive mid-term and long-term company value creation. The targets range from 100%-250% of Base Salary for "Bonus" and range from 200% to 600% of Base Salary for "Long-term Incentive", reflecting the market practices of global companies.

4. Performance-based Compensation

4-1. Internal Directors

For Internal Directors, the Company has introduced a Long-term Incentive Plan that is allocated as 60% for the plan designed based on Performance Share Units (Performance Share Unit awards) and 40% for the plan designed based on Restricted Stock Units (Restricted Stock Unit awards). Performance Share Unit awards are tied to company performance results to strengthen the link between compensation and company performance and share price, and to reinforce Internal Directors' commitment to increasing corporate value in the mid- and long-term. Restricted Stock Unit awards are linked only to share price.

Annual Performance Share Unit Awards

Performance Share Unit awards, which fall under Performance-based Compensation, will be linked to the latest mid- to long-term key performance indicators (KPIs) over a three-year performance period. KPIs are intended to be transparent and objective and may include top line revenues, cash flow, indicators on profit, R&D metrics and other performance factors. The payout range for Performance Share Unit awards is from 0% to 200% (100% at target), based on performance achievement. For Long-term Incentive awarded in 2019 and after, a two year holding period will be mandated, and this includes Restricted Stock Unit awards if and when shares become vested.

Performance against established KPIs for one-time special Performance Share Unit awards are determined independently each year over a three-year period, with shares becoming vested after the relevant performance metric(s) are determined to have been achieved for the applicable period. There is no post-vesting holding period established for one-time special Performance Share Unit awards.

The Long-term Incentive Plan (stock compensation) for Directors who are Audit & Supervisory Committee Members and External Directors consists of Restricted Stock Unit awards linked only to share price and is not otherwise linked to company performance results. The stock compensation awarded in 2019 and after will vest three years after the award date of base points used for the calculation and Directors will be required to hold at least 75% of their vested share portion until they cease service as a director (however, stock compensation awarded in or before 2018 will vest and be paid after they cease service as a director). 5. Compensation Governance

5-1. Compensation Committee

The Compensation Committee, with all the Committee members being External Directors, has been established to serve as an advisory body for the Board of Directors to ensure the appropriateness of Directors' compensation and the transparency in its decision-making process.

The level of compensation, compensation mix and performance-based compensation (Long-term Incentives and Bonus programs) for Directors are reviewed by the Compensation Committee before resolution by the Board of Directors. The Company delegated to the Compensation Committee, by resolution of the Board of Directors, the authority to determine Internal Directors' individual compensation in order to ensure the objectivity and transparency in the decision-making process. In order to enhance transparency of the Company's corporate governance, the Company has externally disclosed the Compensation Committee Charter as a part of the Company's corporate governance documents.

5-2. Recoupment Policy

The Compensation Committee and Board of Directors adopted a clawback policy in 2020 and amended that policy in 2023. The amended policy provides that, in the event of a restatement of financial results, Takeda will, in accordance with SEC and NYSE rules, recover from its executive officers any erroneously paid incentive compensation, which consists of incentive-based compensation for the applicable recovery period that would not have been granted absent the restatement (i.e., mandatory clawbacks). In addition, in the event of a restatement and/or significant misconduct, the independent External Directors may require Takeda to recoup additional incentive and other contingent compensation. This would include all or a portion of the incentive and other contingent compensation received by any Internal Director, any other member of the Takeda Executive Team (TET), and any other individual designated by the independent External Directors, within the fiscal year, and the three (3) prior fiscal years preceding the date of the Board of Directors' determination of the restatement or the date that independent External Directors determines that significant misconduct occurred, as applicable. The amended policy became effective on October 2, 2023 and, with respect to mandatory clawbacks in the event of a restatement, applies to incentive compensation beginning in Fiscal Year 2023.
