

Takeda's Total Tax Contribution

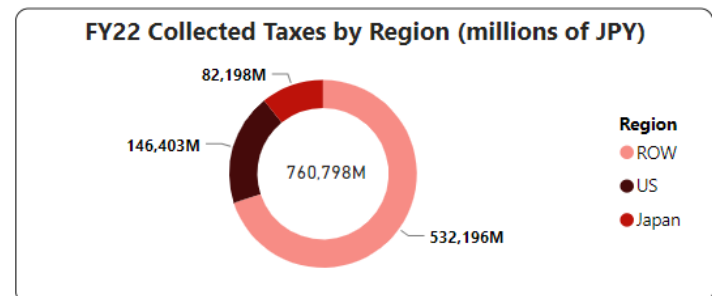

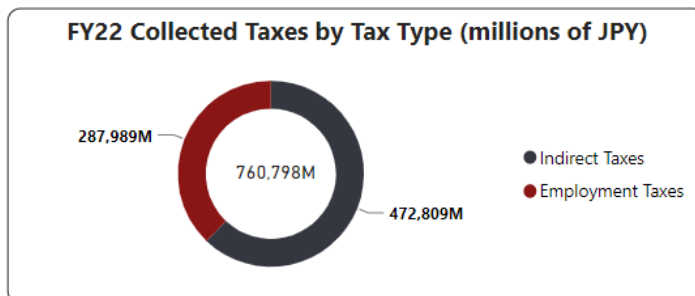

Takeda operates in approximately 80 countries and is committed to paying its fair share of taxes in a responsible manner. The taxes we pay are a significant part of the social and economic impact we make in the countries where we operate. To provide greater transparency into our tax profile, we have prepared the following data and charts, which cover the main taxes we pay and collect globally from our operations. Please note that the figures in this report cover the material aspects of our operations, but not all the figures are formally audited.
