Markets

Global 70+ countries

Certifications

ISO 14001
ISO 45001
Halal Certification

EHS Highlights

650 m² of solar panels producing 90-100 MWhr/year of electricity
100% green electricity sourcing: 95% Hydraulic, 5% Solar
Heat recovery from boiler stacks, steam condensate & waste water recovers 3200 MWhr/year
Water recovery from reverse osmosis and WFI still to feed cooling towers
Water consumption reduction on Vonvendi production line up to 15.000m³/year
